

To Whom It May Concern,

It is my pleasure to enthusiastically recommend Jason Fletcher for employment with your organization.

My name is Katy Moulthrop, Senior Sales Advisor for [OPTERRA Energy Services](#). I had the pleasure of working with Jason Fletcher this summer during his internship at OPTERRA. Of the numerous interns that I have overseen, Jason was among the most intellectually curious and driven individuals I have worked with.

During our time together, Jason proved himself to be incredibly bright, inquisitive, and innovative. He worked through a demanding program learning about green energy sources and how they are integrated into society. His highly developed collaboration and leadership skills were on full display in his debates with other interns regarding the locations in which to implement geothermal plants. In addition, he worked closely with his peers during a multitude of assignments in which he learned about the rules and regulations in place for environmental protections.

His capstone project detailed the implementation of solar panels in under-used spaces to decrease carbon emissions and reduce electrical bills by 30–50% in his city. His presentation received glowing reviews from my colleagues and his peers.

Jason's passion for engineering and hands-on problem solving is evident outside of his internship as well. He often spoke of his numerous personal projects, such as rebuilding a 1995 Chevrolet Camaro and working to implement his own solar panel system for his house.

I am confident that Jason Fletcher will bring the same level of innovation, rigor, and leadership to any workplace environment. As a passionate and proactive individual, he would be a valuable addition to your organization.

Feel free to contact me at kmoulthrop@opterraenergy.com if you have any questions or would like me to further elaborate on Jason's talents or achievements.

Sincerely,
Katy Moulthrop
Senior Sales Advisor
